Personal

I am a 40+ years old family man living at Espoo suburb. Hobbies include ice hockey, rinkball and floorball. I would characterize myself as open-minded, hard-working, challenge loving self-developer.

Business Profile

I am an experienced professional with comprehensive background of various ICT assignments including project management, specification engineering, architecture, implementation, quality control and deployment of enterprise systems.

Lately I've been specializing in digital product development for top global companies in their domains.

My career includes proven track record in delivering large projects with multinational teams.

I have project / program management experience from several projects for more than 10 years.
